Guided Pathways' Goals and Intentions

“Students should be able to enroll with confidence and move through their educational experience with clear pathways and few obstacles.”

What Guided Pathways seeks to achieve

“**Advance Equity:** Removing barriers that today’s students face, particularly students of color, first-generation students, students from low-income backgrounds, and working adults.”

“**Redefine Readiness:** Fundamentally shifting the conversation about what it means to put students first, encouraging colleges to focus on their readiness for students rather than students’ readiness for college.”

Please reflect on what you heard during the panel discussion. What resonated with you? What thoughts and ideas come to mind?

Breakout Activity

Thinking about your own practice, write a short reflection about your situation and something that you really want to do for students on your campus. (3 minutes)

Breakout Groups (one flip chart per breakout group, 4 groups)

- Count off 1-4, then divide folks into the 4 groups based on those numbers

Instructions:

1. Get into a group. Pick one person to **share out** and one person to **take notes**.
2. In a group, generate promising/emerging practices based on your group's wishes to recenter your work on students. We encourage you to DREAM OUT LOUD.
3. Select one promising or emerging practice.
4. Share your selection and why you selected it with the larger group.
